VOL. XVII, NO. 52.

THE BLAIRMORE ENTERPRISE, THURSDAY, DECEMBER 26, 1926.

## Wishing All a Happy and Prosperous New Year

### SUPT. J. L. JAMIESON IS SUCCEEDED BY A. A. SMITH

Superintendent J. L. Jamieson, of the Lethbridge division of the Canadian Pacific Railway, is being transferred to Brandon, Manitoba, as superintendent of the Brandon division and is being succeeded at Lethbridge by Mr. A. A. Smith, trainmaster at Ignace, Ontario. The change is effective on January the 1st.

Mr. Jamieson came to Lethbridge from a northern division three years ago and during the time he has been superintendent of this division has been a popular officer and the announcement of his transfer is received with general regret. He is an old timer in Southern Alberta, having for five years been with the Royal Northwest Mounted Police, stationed at Macleod and outposts before leaving the force to join the C.P.R. at Medicine Hat. Mrs. Jamieson is a daughter of Mr. and Mrs. John Kerron, of Pincher Creek.

Mr. Smith, who has received a promotion to come to Lethbridge as superintendent, was formerly trainmaster on this division.

Don't forget the Elks' third annual New Year's Eve novelty dance in the opera house tomorrow night. Mrs. Altermatt's orchestra in attendance.

### HORSE PURCHASERS REQUIRE LICENSE

It has come to the attention of the provincial department of agriculture that there has been some misunderstanding, and, in certain cases, some evasion of the operation of the Produce Merchants' Act, with respect to the purchase of horses within the province for resale.

This has led to prosecutions and fines being imposed in one or two instances. In order to clear away any misconception of the Produce Merchants' Act, the department has issued a statement in which it makes plain that the operation of the act mentioned applies to the purchase of horses as well as to other livestock and produce, and that all those who purchase horses for resale, direct from the producer, must be licensed under the Produce Merchants' Act, and that those who purchase horses otherwise for resale must do so through properly licensed produce merchants, who may or may not be also licensed auctioneers.

This applies to purchasers who come from without the province as well as those within the province.

Licenses under the Produce Merchants' Act may be procured from the department of agriculture, Edmonton, Alberta.

### BLAIRMORE TUXIS JUNIORS DEFEAT COLEMAN SENIORS

Coleman Senior Tigers went down to defeat before Blairmore's crack Junior Tuxis team on Saturday afternoon, and a return game is to be played on the Blairmore Arena on New Year's night at 8 o'clock. Here is an opportunity to see a brand of hockey equal to that staged by the pros, and in some respects even faster.

Admission is 25 cents straight, and the posters announcing the game suggest that "If you can't howl, bring someone who can!"

### CLASSIC CHRISTMAS ROAD RACE

The Calgary Herald's Christmas road race is one of the unique athletic classics in Canada. Year after year it is run off and only once since 1906 has it been postponed on account of rough and cold weather. This year, the tradition of good weather again prevailed and thousands saw nineteen seasoned runners compete for the trophy. To Fred Halliwell, the Saskatoon representative, The Herald extends hearty congratulations. He ran a wonderful race, when the slippery footing is considered, and his time while it does not equal the record established last year, 34 minutes, 21 2/5 seconds, still it parallels it, when the conditions are taken into account. His time this year was 35 minutes, 32 2/5 seconds. The Herald road race is a stout test of the stamina of the competitors and that so many finished is a tribute to the sturdiness of our Western Canadian athletes.—Calgary Herald.

### HOCKEY MONDAY NIGHT

Monday night will see Coleman and Blairmore seniors in action on the Blairmore Arena, and a stiff game may be looked for. A large house greeted these two teams at the Coleman Crystal Rink on Tuesday night, and it is expected the visitors will be accompanied by a large force of Coleman fans who take pride in their home brews. It is sincerely hoped that former local fans will feel imbued with the necessity of supporting our hockey team, for without your moral support by attendance and rooting, good results can scarcely be expected. Let's make Monday next a "Day Off" and allow nothing to come in the way of attending the game.

Prices this season are moderate and within reach of all. Reserve seats have been dispensed with and you'll have your choice of positions on the stands. Come out and yell, yell, yell! If the rafters won't stand it, have them removed.

### LOCAL BRANCH B.E.S.L. HOLDS SUCCESSFUL SMOKER

A most successful smoker was staged in the Brunette hall last night, under the auspices of the Blairmore Branch of the Canadian Legion, B.E.S.L. A splendid programme was rendered.

### ELKS' TO STAGE NOVELTY DANCE

All is in readiness for the big event of the season to be staged by the local Lodge of Elks in the opera house tomorrow night, New Year's Eve, in the form of a novelty dance. Mrs. Altermatt's orchestra will furnish music. Dancing will begin at nine and refreshments will be served at midnight.

This event will be the Elks' third annual dance.

### BIG HOLIDAY CARNIVAL AT BELLEVUE TOMORROW

As announced, you should "Start The New Year Right" by taking in the big holiday carnival at the Bellevue Arena tomorrow night and New Year's Day.

Tomorrow, at 7 p.m., the big event opens with a senior hockey league game between the Bellevue Bulldogs and the Blairmore Elks, to be followed by ladies' races, broom ball, general skating, etc., to the sweet and sultry strains of music from the West Canadian band.

On the afternoon of New Year's Day, there will be preliminary races for boys and girls, 6 to 15 years. At 7 p.m., races for men, including quarter-mile backward, half-mile, obstacle race, etc., and at 8 o'clock, a grand fancy-dress masquerade. Prizes will be awarded for the best-dressed lady and gent, most original and comic, and best dressed boy and girl. Clowns are cordially invited to participate.

Gold bonds will be drawn for at 10 a.m. Saturday.

There will be various stalls in operation, stocked with blankets, hams, etc.

Now, if you miss this big event, you surely will regret it.

### O.E.S. WHIST DRIVE

The fourth of the series of whist drives under the auspices of Vimy Chapter, Order of Eastern Star, will be held in the Lodge Hall on the night of Wednesday, January the 6th, commencing promptly at 8 o'clock. The usual luncheon and dance will follow.

### BENEFIT DANCE AT HILLCREST

A grand dance will be given in the Union hall at Hillcrest tomorrow night, New Year's Eve, for the benefit of Carlo Bossetti. Turn out and help a good cause. Serenaders' orchestra will be in attendance.

Mr. Warren Ayers spent the Christmas holidays with his mother and sister at Bull River.

Mr. Louis Pozzi will return to college next week, to resume his course in constructional engineering.

With our issue of next week, we start our eighteenth year of continuous publication in Blairmore.

George E. Jacques, Calgary's first jeweler and an old timer of that city, lies seriously ill in the Holy Cross hospital, suffering from pneumonia.

Mr. J. M. Carter arrived from Seattle on Wednesday night last, to spend the holiday season at his home here. He returned to Seattle today.

The bachelors' ball, held in the Community hall at Lundbreck last night, was a banner affair. Splendid music was furnished by the Spokane Orifices.

The brightest man in the world is the Scotchman who shot off a pistol outside of his house on Christmas Eve and then came in and told the children that Santa Claus had committed suicide.

The man who stops his little ad in not so very wise, because his advertisements tell the public what he has to sell, and if his ad is not on deck the people pass him up, by heck, and none of them will hesitate to trade with merchants up-to-date. To stop your ad we would remark, is just like winking in the dark. You may know what it means, but gee! nobody else can see. So do not for a moment think that when you cut out printer's ink you're saving money on the side —'tis merely business suicide.—Ex.

### FORMER PASS MINER KILLED IN NEW ZEALAND

Word was received here this week of the accidental death of James Marshall, killed in a mine in New Zealand.

Mr. Marshall was a former resident of the Crow's Nest Pass and worked in several mines in the district.

Several years ago Mr. Marshall went to England with his family and later decided to make his home in New Zealand, in preference to Canada. Mr. Marshall leaves a wife and two children, grown up, residing in New Zealand.

"How do you know that your daughter trusts in God?"  
"By the company she keeps."

### PASS BOY WINS HONORS IN CALGARY ROAD RACE

John Kerr, son of Mr. and Mrs. John Kerr, of Passburg, had the honor of winning second place in the annual road race at Calgary on Christmas Day, time 37 min. 35 3/5 sec. Fred Halliwell, of Saskatoon, came first, and Freddie Lees, of Calgary, formerly of Coleman, third, with time 35 min. 32 2/5 sec. and 37 min. 49 1/5 sec. respectively. Kerr and Lees ran side by side for practically the whole five miles, but Lees was outprinted at the finish.

Come and enjoy yourself tomorrow night at the Elks' third annual New Year's Eve novelty dance in the opera house. There will be lots of fun.

## PROPOSAL MADE TO ESTABLISH AN AIR MAIL SYSTEM

Saint John, N.B.—Proposals looking to the establishment of an air mail system in Canada are under observation and consideration by the Post Office Department, Hon. P. J. Veniot, minister-general, said recently at Bathurst in an interview over the long distance telephone.

"The matter," he added, "is only in its tentative stages as yet and a definite policy has not been adopted, but we have it in hand and expect to make a definite announcement in the near future."

A fair trial, he said, would be given the carrying of mails by aeroplane, probably on a small basis at first, but if conditions and results warranted, the system likely would be increased.

Whether this will come before the House of Commons during the session opening in February, in the way of appropriation of money for the matter, Hon. Mr. Veniot was not prepared to say.

The Post Office Department, he said, had followed with interest the success attending the idea in the United States.

## Output Of Clay Products

Ontario Leads Dominion With Sales Totalling \$5,195,088

Regina.—The production of clay and clay products in Canada during 1925 was valued at \$9,829,691 according to finally revised statistics just issued by the Mining, Metallurgical and Chemical Branch of the Dominion Bureau of Statistics at Ottawa. This year's sales were 3.4 per cent higher than the total of \$9,515,077 reported for 1924. The Ontario production in 1925, was valued at \$5,195,088 or 54.5 per cent of the total for Canada. Quebec came next with a sales value of \$2,426,837, Alberta, British Columbia, Nova Scotia, Manitoba, Saskatchewan and New Brunswick, and Prince Edward Island followed in the order named.

## Disturbed Over Wage Scale

London Women Bank Clerks Receive Less Than Men Typists

London Women Bank Clerks Receive Less Than Men Typists. London women bank clerks are disturbed at a new scale of salaries issued by the Westminster Bank, one of the largest institutions in the Kingdom. Under this scale a woman bank clerk will receive \$20 a year less than a shorthand typist in the same office. It is also indicated that women clerks may not hope to rise to positions where they will have supervision of men clerks.

An official of the bank says women are good at routine work, but when it comes to the higher work, with its demand for initiative and enterprise they are likely to fall down.

## Plan For National Defence

Sweden Wants Fleet That Can Defend Whole Coast

Stockholm.—A fleet capable of defending the whole coast line of the country was recommended by the special committee appointed to draw up a naval construction program in accordance with the National Defence reorganization scheme adopted in Parliament last year. The committee suggests an expenditure of 105,400,000 Swedish Crowns (about \$26,350,000) between 1928 and 1932.

## Made Safe Landing

Lakehurst, N.J.—A marine has landed here with the situation in hand—a kite balloon that ran away with him, when a 1,000-foot cable parted. Lieut. Frank P. Ellis managed to use a parachute, even if the balloon did start toward Ireland. After a trip of eight miles with an auto, a blimp and an aeroplane pursuing him, he landed a tree with the broken cable.

Memorial to Socialist Leader  
New York.—The name of Eugene V. Debs, Socialist leader, will be perpetuated in air instead of stone. The national executive of the Socialist Party has rejected proposals to erect a monument to their dead leader and decided to open a radio broadcasting station, WDEB, in his honor, it was announced recently.

## U.S. Food Act Amended

Washington.—The Food and Drugs Act has been amended by the United States House to include a provision that raw fruits and vegetables grown outside the United States and its territories shall be so labeled when sold in this country. Rice is included in the provision.

W. N. U. 1491

## Patriotic South Africa

Stand Taken by Premier Hertzog  
Creates Intense Enthusiasm  
Cape Town, South Africa.—Premier Hertzog's changed attitude since his return from the Imperial Conference in London continues to be widely commented upon. His declaration at Pretoria, that as a result of the Imperial Conference "the most ardent protagonist of national loyalty could now warmly support co-operation with the British Empire," has appealed, amid intense enthusiasm, to all the sons of the South African Union above racial prejudice or party division.

The Cape Times says Premier Hertzog's speeches are shaking the foundation of the political life of South Africa. "They give the impression," The Times says, "that the man is busy about a greater task than any it seemed possible for him to undertake. His declaration of the new national responsibility will affect the whole attitude of the present government towards questions like that of the native policy and the Asiatic difficulty."

The Government's policy in the matter of the native and Indian residents tends towards greater restrictions than are imposed upon the native Indians at present, and calls for segregation to some extent, but the whole question has been in abeyance for some months.

## May Help Western Settlers

But Millions Will Not Be Spent Says Minister of Immigration

Ottawa.—Legislation to assist settlers on crown lands may be introduced to Parliament again this session.

At the present time, Hon. Robert Forke, Minister of Immigration, will neither confirm or deny the report, although he has denied reports which have appeared stating that annual expenditures of millions of dollars will be asked for use in such a scheme.

Any legislation this year probably will be along the lines of last year's bill which never got past the committee stage in the House of Commons. The bill was to provide five per cent in ten year loans of \$1,000 to Canadian citizens and \$500 to alien settlers. It met with considerable opposition. The loan was to apply to settlers on crown lands in any part of Canada and the money was to be let out on improvements and buildings.

Hon. Charles Stewart, acting Minister of Immigration, said last year, when giving the bill in the Commons, pointed out that there were ten million acres of land which could still be settled in the prairie provinces and while it was not all good land, much of it was of considerable value, and the bill restricted loans to those living within a radius of 15 miles of a railway.

## Alberta Awaits Action Of Federal Government

Will Follow Ottawa Loan Scheme Says Provincial Treasurer

Edmonton, Alberta.—Whether or not a new rural credits bill will be introduced at the coming session of the Alberta legislature, depends, according to Hon. R. C. Reid, provincial treasurer, upon the action of the Dominion authorities. If a Dominion-wide scheme for lending farm money is put through the federal house this winter, he says, the provinces will follow with ratifying legislation, and in the case of Alberta, a new act will be introduced at once when the final move has been made at Ottawa.

The framework for such an act in this province is already in hand and will require only the finishing touches to make it conform to the Dominion act. No delay is therefore anticipated in making the scheme operative.

## Lloyd George Has An Eye To Business

Makes a Profit of \$5,000,000 for Campaign, Says Shrewd Investor

London.—David Lloyd George has just proved that he has a business as well as a political brain by making a profit of \$5,000,000 for his campaign fund and \$500,000 for himself through a judicious investment. As sole custodian of a campaign fund of about \$15,000,000 he bought the "Daily Chronicle" and backed his judgment by investing some of his own money. He has just told the newspaper to a syndicate at the profit.

## Prince Celebrates Birthday

London.—Prince George, the youngest son of King George and Queen Mary, celebrated his 24th birthday, Dec. 24. A happy family party was held at Buckingham palace in honor of the young prince, who has recently returned from his lengthy naval service in Oriental waters.

## Universal Disarmament

Germany Will Endeavor to Bring This Idea Nearer to Realization  
Hamburg, Germany.—Germany regards the agreement reached at recent League of Nations council at Geneva for the withdrawal of the inter-allied military control commission as recognition that Germany has disarmed. Dr. Gustav Stresemann, foreign secretary in the ministry which resigned several days ago, made the statement. He added that it was incompatible with the spirit of the League of Nations for other countries to continue heavily armed while for Germany there were detailed disarmament restrictions. At future meetings, he declared, Germany "will raise the problem of bringing the idea of universal disarmament nearer realization."

Dr. Stresemann was speaking at a banquet given in his honor by the Free State of Hamburg. As for the country's foreign policy, he said it would not be affected by the resignation of the bourgeois coalition cabinet or Chancellor Marx.

## Britain Stands By Pact

Will Not Ask Revision of War Debt Settlements

London.—Great Britain will stand by her debt funding agreement and the principles of the Balfour note, was the comment of an official of the foreign office on the proposal of the faculty of political science of Columbia University, New York, for a conference to revise the war debt settlements.

This official expressed the view that the proposal was the outcome of a purely academic and unofficial professional discussion, although it might have educational value, which, if crystallized, would undoubtedly be welcomed by British taxpayers.

"Debtors," he added, "are always willing to pay less than they owe." Apart from this brief remark, the foreign official declined to comment.

## BRITISH EMPIRE AS AGENCY FOR WORLD PEACE

Winnipeg.—The British Empire is greater than ever at the present time, and recent changes in the attitude of the nations within the Empire toward one another, has not altered the fact that it stands in time of peace as it stood in time of war, the greatest agency of peace that the world has ever known. This was the definition of the British Empire given by Hon. N. W. Rowell, K.C., before the Canadian Club here.

Mr. Rowell declared that the purpose of the Imperial Conference had not been, as some thought, to define the status of the Dominions. The Dominion has not blossomed into self-governing entities in a day. Rather had the purpose of the committee on Imperial relations been to consider the changes required in administrative, legislative and judicial forms, to bring them into harmony with the status already acknowledged and declared.

Referring to public opinion in Canada relative to the status of the Dominion, Mr. Rowell thought no student of Canadian affairs could picture the future of the Dominion and at the same time be prepared to accept subsidiary relations to any other power. The vast majority of the Canadian people firmly believed in a full equal status for Canada within the Empire, and the unity of all the nations comprising the Empire.

"To this view I subscribe. I believe that Canada's highest destiny lies within the Britannia family of nations."

## Railway Official Appointed

ROWLAND FLYNN.

Who has been appointed Superintendent of Investigation of the Western Region, Canadian National Railways with headquarters in Winnipeg.

## Trans-Atlantic Radio Phone Near Completion

London and New York Carry on Experimental Talks

New York.—Experiments with the Trans-Atlantic wireless telephone have reached the stage where connections with London have been made from the ordinary telephone booth. London engineers, working on the wireless telephone have used store booths to talk to New York.

They have called the telephone central and been connected with the office doing the experimental work and from there have been looped into the wireless station and so across the ocean, where the messages have been taken from the air and put on a land wire for transmission to their destination. Only one speaker can talk at once in either direction.

London.—The cost of a three-minute trans-Atlantic telephone conversation when the service is opened is expected to be between \$15 and \$25. No definite charges have been fixed, but it is understood that there are the maximum and minimum figures under discussion between American Telephone companies and the British post office.

It is understood that in preparation for the opening service, which is expected next month, telephone directories covering Manhattan and Brooklyn have been compiled for London.

## Uses Typewriter On Air Line

Woman Passenger From London to India Establishes Record

Marseilles.—Reuters special correspondent of the air liner which is being flown from London to Karachi, India, and which will later go into regular service between Cairo and Karachi as a unit of the new air service between these two cities, stated in a message that Mrs. Lockyer, a lecturer for the League of Nations Union and a former resident of Montreal, who is a passenger, has established a record as the first woman air typist. So steady was her machine that while flying between Dijon and Tournon, in France, she was able to communicate with Reuters' correspondent by typing her replies to questions which had been put her in writing, owing to the noise of the engines.

## Australia's Premier to Visit Canada

London.—Premier S. M. Bruce, of Australia, who remained in England since the close of the Imperial Conference, called for New York, Dec. 22, and will proceed to Ottawa for a short visit. He will make brief visits in Montreal, Toronto, Winnipeg, and Vancouver before sailing for the latter city for Australia. He will probably reach Vancouver by January 2.

A World's Record Cow

A recent distinguished passenger over the Canadian Pacific Railway was Petrosia Oxford Janet, Number 17413, a Jersey cow who calved February 27, 1926. A 205 day test was instituted and it was found that she had produced 14,935 lbs. of milk and 872 lbs. of butter fat, the equivalent of 1,025 lbs. of butter. This is claimed to be a world's record for butterfat for Jerseys of all ages. She has produced in less than a year more than her own weight in butter. She belongs to the Rosedale Ranch, Armstrong, B.C.

## U.S. Shipping Protests

Claim British-United States Liner Treaty Is Running Downside

New York.—Attempts to have the British-United States treaty, which permits British vessels to bring freight into United States ports under seal affixed and removed at the three mile limit, declared unconstitutional, was touched before the United States circuit court of appeals by the Neptune Association of Masters and Mates.

The treaty was characterized by representatives of the association as a menace to United States mariners and shipping.

Under provisions of the treaty, which make possible the carrying of alcoholic beverages on British passenger vessels beyond the three mile line, passengers are being drawn away from United States vessels to vessels where they may obtain alcoholic beverages, they asserted.

The result has been, according to the attorneys, a reduction in passenger traffic on United States vessels, and in the sailing of United States ships; the "tying up at anchorage" of vessels that might otherwise be engaged at passenger traffic; and the turning over of United States vessels to foreign companies and their transfer to foreign registers.

Although the treaty with Great Britain only was subjected to attack, it was stated by members of the Neptune association that if the circuit court of appeals should render a favorable decision, all similar treaties with whatever nation, will be attacked.

## Dumping Aliens In West

Policy of Landing Penniless Aliens Here in Winter Is Condemned

Calgary.—The provincial government will not sanction nor give relief to penniless aliens brought to Canada in winter by railroad companies or other agencies according to William Carrill, superintendent of the Calgary branch of the employment service. Three Islanders form the advance guard of the men who docked at St. John on December 11, and came direct to Calgary, expecting immediate work. They were compelled to apply for relief. "The care of such men is a matter for the federal government," Mr. Carrill said. "It is nothing short of criminal to dump such men into the West in the dead of winter."

## Franco-German Agreement

Powerful Potash Interests Have Signed Seven Year Pact

Winnipeg.—The powerful potash interests of France and Germany, which control the resources of that commodity in the world have completed an agreement relating to ratios of production and division of world markets, it was reported from Lugano, Switzerland.

A ratio as of 70-30 for Germany and France respectively will be observed in all markets of the world, with the exception of the United States, for which "special treatment" is being arranged. The agreement extends for a seven-year period.

## C. N. R. BRANCH LINES PROPOSED FOR THE WEST

Ottawa.—Plans for the construction of branch railway lines at a cost of \$6,000,000, mostly in Saskatchewan, are under consideration by the Canadian National Railway. Definite decisions have not yet been made but it is believed the Western branches will include the following: from Ashmont, Alberta, into the Beaver River country; a link between St. Paul de Metis, Alberta, and the Turtleford, Sask.; continuation of the work on the branch running in an easterly direction from Turtleford and the possibility of connecting it with Shellbrook, Sask.; a short line from Weyburn to Radville, Sask.; and a branch line running in an easterly direction from Hodgegate, Sask. There will also be a number of small branches in the mining areas of Alberta but no decision has as yet been reached as to these.

Stories to the effect that the Canadian National Railway's program would indicate an outlet from the Peace River country in Northwestern Alberta are discredited in Government circles. Western cabinet members and Government officials are said to be opposed to the construction of the proposed Brule Lake cutoff.

Only one work will be undertaken in Eastern Canada and that will be a 20-mile extension to the Lake St. John line to tap valuable industrial areas. The proposals will be submitted to Parliament when the session is resumed.

## ESTIMATE GIVEN OF WHEAT CROP GROWN IN WEST

Winnipeg.—The aggregate wheat crop of the 1926 crop year in this year is placed at 271,216,000 bushels in the final estimate issued by the Northwest Grain Dealers' Association. The total production of oats is estimated at 216,500,000 bushels; barley, 51,904,000 bushels; rye, 4,704,000 bushels; flax, 5,648,000 bushels.

The estimate is based on the acreage figures issued by the association on June 11 last. Figures were compiled from returns covering 82 per cent of country points in the western grain belt.

By provinces the wheat crop is estimated as follows: Manitoba, 64,329,000 bushels. Saskatchewan, 200,749,000 bushels. Alberta, 125,338,000 bushels.

## Labor Candidate Wins

Oswald Mosley, Rich Socialist Wins By Election in Britain

Swindon.—Swindon more than justified the confidence of the Laborite in the by-election for Parliament by returning Oswald Mosley, Laborite, by a huge margin over his Conservative opponent, J. M. Pike, and the Liberal, W. Bayliss.

The vote was: Mosley, 16,077; Pike, 9,455; Bayliss, 2,600.

The result which was received with frantic enthusiasm by Mosley's supporters shows that Social-Laborites of Swindon were undeterred by the aristocratic extraction of Mosley and his wife, (who was Lady Cynthia Curzon), and their wealth, from giving him their confidence, and it may be, fresh testimony of the old saying in this country that "your Radical dearly loves a lord."

Mr. Mosley said after the announcement: "The result shows that the Government has entirely lost the confidence of the country and has now no mandate to govern."

Mr. Pike said: "The electorate seemed to have been hypnotized by Mosley's worldly possessions. The result of the election is the conquest of the Labor party by wealthy aristocrats has begun."

## New Post Office Is Named Fort San

Mail for Qu'Appelle Sanatorium Should Carry This Address

Regina.—Fort San is the name of a new post office opened at the tuberculosis sanatorium at Fort Qu'Appelle. Patients and all members of the staff now get their mail direct from the post office at Fort Qu'Appelle.

Opening the new office has speeded up the arrival of mail by several hours. W. H. Madden has been appointed postmaster. It will mail letters addressed to the Sanatorium at Fort Qu'Appelle should carry the new address, Fort San.

## Has Educational Film Service

Paris.—The Ministry of Agriculture has organized an educational film service for the remote country district. So far there is a library of 23,000 films showing modern and economical methods of farming, stock raising, the preservation and storage of public and private hygiene, and child welfare. The pictures are shipped free to anybody who can show good use can be made of them.

## Heer West's Appeal January 10

Ottawa.—The Government has fixed January 10, at 2 p.m., as the date for hearing the appeal of the Province of British Columbia, Alberta and Saskatchewan to the cabinet council formed by the order of the Board of Railway commissioners. The appeal is in respect to the rates on flour and grain rolling towards the Pacific Coast.

## Win Increase in Pay

Brussels.—The diamond cutters of Belgium, of whom there are more than 14,000, have just won a fight for increased pay. At first their employers declared a lockout but the men won up only a week when they capitulated.

## Preparing for World's Fair

Brussels.—The next world's fair will be held in Brussels in 1935, and the country is already preparing for it. The city has voted 25,000,000 francs as a beginning.

## Was Martyr to Science

Cambridge, Mass.—A martyr to science, Dr. H. H. Koss, has planned the use of the X-ray, is dead from cancer contracted in its use.

There are more than 4,000 people in the United States over 100 years old.

### THE CLOCK TICK

"One never hears a clock tick in his own room, but if we stop and listen for it, it is clear, distinct and regular. Constant association makes it spineless."

"For the same reason, we become oblivious to wastes in our business. They develop gradually and the first thing we know, somebody comes along and calls our attention to the fact that the leakage is a serious drain. Our ears and eyes play tricks on us constantly."

"Our eyes see not, neither do our ears hear. We pass opportunities daily, but we do not realize it until some one comes along and grabs it. Then we wonder why we didn't see it."

"We live in an age where it is necessary to keep in step with the times. Changes are taking place daily, yet most of us are content to do the same thing today that we did yesterday, and to become peeved when we are barred out of our comfortable routine. Of course, it takes courage to keep up near the front end of the procession, but it is necessary in this day and age if one fails to render the service that this community expects."

"It is a good thing to pause every once in a while and listen for the tick of the clock.—Ex."

### THE PASTOR PROBLEM

An exchange says:  
When a church seeks a pastor  
It often wants  
The strength of an eagle,  
The grace of a swan,  
The gentleness of a dove,  
The friendliness of a sparrow,  
And the night hours of an owl,  
And when it catches that bird  
It expects him to live  
On the food of a canary.

### CANADA'S MOTTO

"The motto of Canada—"A mari usque ad mare" (meaning from sea to sea)—was taken from the Latin version of verse 8 of the 72nd Psalm.

Ralph Underwood, of Saskatoon, found Christmas cheer in large quantities when he discovered a pearl in an oyster that realized \$500.

Kelly (trying to locate his month's allowance)—"Let's see. I had fifteen phunks, spent \$5 on liquor, lost five at poker and—er—I must have spent the other \$5 foolishly!"

The Canadian National Railways tossed up two thousand turkeys and over five thousand plum puddings on their dining cars during the Christmas season.

### Wrong Guess

Wife: "Is my hat on straight, dear?"

Husband (in a hurry): "Oh, yes, quite straight."

Wife: "Are you sure?"

Husband: "Yes, do come along."

Wife: "Oh, dear. I must go back. You see, it is not fashionable to wear this kind of hat straight."

### Pound Wanting

Young Wife—"I can't say that I think much of my new sewing machine—it is disappointing."

Experienced Matron—"What is wrong with it?"

Young Wife—"I don't know exactly, but when I tried to sew buttons on with it the machine broke every one of them."

## SECOND AND THIRD DIVISIONS' PRIZE ESSAYS "CANADA'S PART IN THE GREAT WAR"

**Second Division**  
Following is the first prize essay of the Second Division of the Canadian Legion, British Empire Service League, on the above subject, written by Myrtle E. Myers, of Grade X, Central Collegiate Institute, Calgary:

Canada's part in the Great War was an honorable one. As soon as war was declared, which was on August 4th, 1914, Canada offered to assist the Motherland as shown in the Duke of Connaught's message to the British Government—

"The Canadian people will put forth every effort and make every sacrifice necessary to insure the integrity and maintain the honor of the Empire."

Having no standing army she began at once to raise an expeditionary force by voluntary enlistment, and by the beginning of October a division of thirty-three thousand men was on its way across the sea, the largest flotilla that crossed the Atlantic. Since that time, the number was raised to over half a million, four hundred thousand of whom crossed the sea. Altogether about one-tenth of Canada's population enlisted.

There were 51,131 Canadian soldiers killed, 4,900 deceased, 2623 died in Canada, making a total of 58,654.

The first Canadian unit to take its place in the battle line was the Princess Patricia's Canadian Light Infantry, a unit that played an honorable part throughout the war.

At first an effort was made to keep the units entire as they enlisted, but as the war went on, this was found to be very difficult, if not impossible. After having crossed the sea, the soldiers were trained in England, then to the battlefields of France. One of the marvelous things to relate is that no Canadian soldier was lost in transport, in spite of the efforts made by the U-boats of the enemy.

Some of the engagements in which the forces took part are as follows—

In 1915, the Battle of Neuve Chapelle, which was the second battle of Ypres, where the Germans first used poisonous gas and where the Canadians held the line for four days and blocked the road to Calais. Then St. Eloi, Sanctuary Wood, Hooge, the Battle of Somme and Courcellette, were fought in 1916. At the Battle of Somme, the British, for the first time, used armored tanks. Also at this battle the Canadians were noted for their very fine work rendered.

Vimy Ridge was next fought in 1917, and here the Canadians specially distinguished themselves. In the same year the Battle of Lens, Hill 70, and Passchendaele were fought. At Passchendaele many perished as it was like a sea of mud.

The Second Battle of the Somme, Amiens, Monchy-le Preux, the breaking of the vacant-Droucourt line, the crossing of Canal du Nord, Bourlon Wood, Douai, Denain, Valenciennes, and the capture of Mons the morning of the signing of the Armistice, were the chief events in which the Canadians took part in the year 1917.

All these are honored names that have been made sacred to us by the life-blood of Canadian heroes. In every service, whether the infantry or the cavalry, the artillery, the forestry, construction corps or the air force, our Canadian soldiers won great praise for their daring, endurance and initiative.

During the war the women at home also showed their splendid qualities and service by making clothing for the soldiers at the front. Many millions of dollars worth of food and

**An Expensive Friend**  
Englishmen never tire of jokes about Scottish thrift. Here is the latest one heard in London.

Two Scots were chatting.  
"I see your friend Angus has married for the third time," said one.

"An expensive friend he's been to me," grumbled the other. "Two wreaths and three presents, and all in eighteen years."

clothing crossed the Atlantic for the Canadian heroes.

In this great work at home and overseas, Canada showed her love for the Mother Country and strengthened the bonds between them.

**Third Division**  
Following is the first prize essay of the Third Division, Canadian Legion, B.E.S.L., 1926 competition, written by Chris Ritchie, Wye Road School, East Edmonton:

Canada's part in the Great War! What a fascinating, honorable story to write about! This great Dominion in which we live proved to be one decisive factor in the saving of the British Empire from a Prussian invasion.

In the year of 1914 the first Canadian Contingent, thirty thousand strong, crossed the Atlantic to unfurl the Union Jack in defiance of the Germans. From that day to the end of the war volunteers, swelling the total to nearly six hundred thousand, from all corners of our great Dominion flocked to military camps to take up arms in Britain's cause.

From 1914 to the end of the war the Canadians distinguished themselves, covered themselves with glory and won honor and respect from all nations. In the second battle of Ypres, when the French troops were paralyzed with the poison gas used for the first time by the Germans, the Canadian troops filled the gap and repulsed the fierce onslaught of the Germans. This story alone is enough to win fame for a nation, but this is just one of the triumphs of our countrymen.

It was the Canadians who took the last ridge at Passchendaele in the third battle of Ypres. It was the Canadians who took the strongest of the German defenses in the great advance to liberty. Canadians, also, fired at Mons the last shots of the war. Besides this superb record they won the acclaim of our nation at Hill 70, Vimy Ridge, Neuve Chapelle, St. Eloi, Sanctuary Wood, Festubert, Cambrai and Giverny by their daring and skill.

Besides our actual fighters let us consider the Red Cross Nurses, the Army Medical Corps, the "padres," the stretcher bearers and the helpers who looked after the injured under shell fire. Who can imagine their hardships? They bore them without a murmur, thinking only of the good they could do. Think of the important part they played.

Yet these do not make the roll of heroes complete. In addition to these the Royal Air Force of thirty-six thousand men made the world gasp with their coolness and daring. These, though not so numerous as our troops, played an important part in the route of the Germans.

So much for our heroes at the front. Let us look at home for the completion of the list. All Canadians in the Dominion, regardless of sex and age, strove to provide for our troops at the front and at the same time keep our home industries from ruin.

Although the Great War has sent sorrow and desolation from shore to shore of Canada, it has really been the making of her. As a result of her part in the Great War, Canada is regarded no longer as a mere colonial possession, but as a nation with another greater nation.

Canada's part in the Great War! Let us engrave these words in a tablet of marble and place it in the "Hall of Fame" that all who enter may see and their thoughts will recall our heroes, our Dominion and our Empire.

### Long Distance Call

Mr. Jones was sitting down to breakfast one morning when he was astounded to see in the paper an announcement of his own death.

He rang up friend Smith at once. "Hallo, Smith," he said. "Have you seen the announcement of my death in the paper?"

"Yes," replied Smith. "Where are you speaking from?"

### CHEVROLET MOTORS

Their uniforms may not be as bright, but their work is just as colorful as that of the Canadian Mounted Police. Their organization is too young to have the traditions of the Texas Rangers behind it but they are making interesting history every day. They ride a "beat" that stretches from the pleasant coasts and cliffs below San Diego to the blazing heat of Sonora desert east of Yuma over trails that even those hard bit Spanish pioneers of long ago christened the "Jornado del Muerto"—Journey of death.

They are the boys of the Border Patrol of the United States immigration service, who, 24 hours out of 24, and 365 days of the year, watch the Mexican border for Uncle Sam to see that no unwanted aliens "crash the gate" and make their way illegally into the country.

Four or five years ago there were only sixteen men employed on the Border Patrol between Tia Juana and the point sixty miles east of Yuma where the Southern California district ends. Then came the passage of the Johnson Bill restricting immigration from the European nations, and where the patrol before had the single task of keeping out smuggled Chinese, there was added the much more difficult job of barring the way against natives of a dozen European nations. Entrance to Mexico is open to any alien and from Mexico thousands of Europeans who have been unable to obtain legal entry to the United States yearly attempt to cross the line.

Today there are 71 men in the Border Patrol in this district. They are mounted, not on horses, but with a fleet of Chevrolet cars, recently purchased for their use by the government. Hitherto the men have owned their own cars but a late change in policy led to the purchase of the Chevrolet fleet for their use.

Few persons are aware of the tight watch maintained on lonely mountain roads, or dim tracks through the desert or the high meadow lands of San Diego's back country. You never know where you will find the Border Patrol at work, which, of course, is decidedly inconvenient for the men who make a business of smuggling aliens.

The very first trip of one of the Chevrolet fleet, for example, resulted in the arrest of three smugglers and two Chinese. Patrol Inspectors E. Spies and R. V. Armstrong were camped in the Warner ranch meadows, where old Butterfield trail forks from the San Diego road and goes east over the pass down the valley of the San Felipe.

In the chilly November dawn they halted a car with a single passenger. A search showed nothing suspicious in the car, and the driver, obviously nervous, was told to proceed. A few minutes later came a second car, but it held four passengers, two of them Chinese, and two alleged smugglers. Realizing that the first car was a scout car, Spies held the prisoners while Armstrong leaped into the Chevrolet and set out after the scout car. In spite of the fact that his car was stiff and new and that the fleeing car had a long headstart, Armstrong caught his man at Oak Grove. The alleged smugglers face the prospect of a two year jail sentence and the Chinese will be deported.

From 99 to 150 arrests per month are made in the Border Patrol service working along the Mexican line. Perhaps half of these are Chinese and the remainder are chiefly aliens from the south of Europe. While the smuggling of aliens has scarcely reached the excellent degree of organization that the bootlegging industry has attained, it is practiced by an even more ruthless class of citizens.

It is no easy job, this Border Patrol service and has more than its share of long hours, danger and discomfort. It requires a degree of initiative, of tact, of quick observation and resolute courage that not every applicant for the work possesses. The

men long in the service develop an uncanny skill in picking out aliens.

Their initiative is proven by an act of the Imperial Valley inspector, who through an emergency faced the task of guarding four roads at once. He flooded two of the roads from the irrigation canals, commanded a crowbar and tore up a bridge on a third and stood guard of the fourth until he was relieved. It put some travelers to a little inconvenience but there was no hole in the border-net that night.

At a recent dance in town, the following was heard: "May I have this dance?"

She—"No, I'm too danced out!"

He—"Why, you're not too danced stout. You're just plump. Please dance this one?"

### ALBERTA

(Tune: "John Brown's Body.")  
Come, Alberta people, let us join in a song.  
Sing it with a willing heart and sing it good and strong.  
Sing it for your province, let your voices come along.  
As we go marching on.

**Chorus**  
Glory, glory to Alberta,  
Glory, glory to Alberta,  
Glory, glory to Alberta,  
As we go marching on.

We are for the Union Jack, our country's flag sublime,  
We are all for Canada and want no other time,  
And we're for Alberta, first and last and all the time.  
As we go marching on.

### BALLAD OF GO-GETTERS

I hate to be a kicker, I always long  
peace,  
But the wheel that does the squeaking  
is the one that gets the grease.  
You tell 'em kid—'you're peaceful  
and not too hard to please,  
But the dog that's always scratching  
is the dog that has the fleas.  
'I hate to be a kicker,' means nothing  
to a show;  
The kicker in the chorus is the one  
that gets the dough.  
The art of soft-soap-spreading is a  
thing that palls and stales,  
But the guy who wields the hammer  
is the one who drives the nails.

### WHEN COMPANY COMES

By Lawrence Hawthorne  
Jest before company comes 't' our  
house,  
Gee, but we're busy, all right!  
Mother keeps everyone jumpin' around  
Gettin' things put out o' sight.  
All of us hafta pick up our toys,  
Even if we want 't' play—  
I don't see why, jest 'cause somebody  
comes,  
Toys hafta be put away!

Gran'ma an' Daddy 're busy, you bet;  
They hafta clean up the rooms.  
Gee, ain't I glad I'm too littl' t' use  
Vacuums an' dust-mops an' brooms!  
Then all the furniture has 'be' moved—

Mother has got a new plan;  
An' when my Dad starts to kick,  
Mother says,  
'Isn't that just like a man!'

When folks 're comin' from some  
other town,  
Nubuddy gets any rest

Till Mother goes down an' buys lots  
o' stuff,  
'So we'll appear at our best.'

Goeh, I don't see why, when company  
comes,

We hafta change all our ways!  
Why can't we keep right on havin'  
some fun—  
Jest like we do other days?

### Sure Signs

A certain subject was suspected of  
being half-witted and the M.D. was  
putting him through a mental test.

"Now," said the doctor, "if you  
were passing a house where the curtains  
were lowered, and you saw a  
man whom you knew to be a doctor  
go in hurriedly, and a little while  
later, a preacher entered, and a few  
minutes afterwards an undertaker  
drove up to the door, what would you  
surmise had happened in that house?"

The boy grinned sheepishly, scraped  
his left foot against his right shin  
and replied: "Well, sir, I'd think they  
had a still in there."

"The boy is perfectly sane," snapped  
the doctor.

### Correct, George

A teacher, examining a class of  
boys in history, looked at one and  
said: "You've heard of Napoleon  
Bonaparte, haven't you, George?"

"Yes, teacher," he replied.

"Well, what do you think Napoleon  
would be doing if he were alive to-day?"

"Living on an old age pension,

### Making Work Easy

Larry was a laborer who hated  
work. He had been ordered to dig  
a well in the yard and consequently  
felt very ill-used.

After his first day's work the well  
had been sunk twelve feet; but during  
the night it caved in and when  
Larry arrived in the morning he almost  
wept.

Suddenly a bright idea struck him,  
and, hanging his coat on the wind-  
lass, he hid himself and yelled lustily  
for help.

A keeper appeared and, on seeing  
what he thought to be a disaster, called  
out some of his companions. They  
armed themselves with picks and  
shovels, and began to dig frantically.

Just as the sun began to drop behind  
the trees, Larry left his hiding  
place, and, peering down the well,  
called quietly:

"That'll be deep enough, boys."

### Knew Sheep

A city young woman went out to  
teach a country school. The class in  
arithmetic was before her. She said:  
"Now, children, if there are ten sheep  
on one side of the wall and one jumps  
over, how many sheep will be left?"

Then up piped a little tow-headed  
daughter of a farmer: "No sheep,  
teacher, no sheep."

"Oh, oh," cried the teacher reproachfully.  
"You know better than that! Think again. If there were  
ten sheep on one side of the wall and one  
jumped over, nine would be left."

"No!" persisted the child. "If one  
sheep jumped over all the others  
would jump over too. You know  
arithmetic, but I know sheep."

### Always Tell the Truth

"My dear," said a business man to  
his wife, as he was starting for the  
office, "don't expect me home early  
tonight as I will have to dictate twenty-six letters."

"All right," she replied, "but I  
wish you wouldn't work so hard."

He left his office at the usual hour,  
went to the club and sat down at the  
card table with three others.

"Just a moment, you boys," said the  
business man, "before we deal the  
cards I've got to keep my word with  
my wife. One of you must take down  
what I dictate—'A, b, c, d, e, f, g, h,  
i, j, k, l, m, n, o, p, q, r, s, t, u, v, w,  
x, y, z.' There, those letters are now  
off my mind."

### A Scotch Discovery

He was a canny Scot, and decided  
that an excellent method of saving  
money for Christmas would be to put  
a penny in a money-box every time  
he kissed his wife.

This he did regularly until the holiday  
came 'round, and on opening the box  
was amazed when out came not  
only pennies, but six-pences, shillings  
and half-crowns.

"Thunderstruck," he asked his wife  
how she accounted for the miracle.

"Well, Jock," she replied, "it's no  
ivery-mon that's as close-fisted as ye  
are."

### Firm Minded

"What's that you call your mule?"

"I call him 'Corporation,'" answered  
the old colored man.

"How did you come to give him  
such a name?"

"'Eum studyin' de animal an' readin'  
de papahs. Dat mule gets mo' baine  
an' abuse dar anythin' in de town-  
ship, an' goes ahead havin' his  
own way jes de same."

Kathleen T. was to go to a fancy  
dress ball, and was discussing with  
her mother the costume she would  
wear. "I think I should like to go as  
a milk-maid," she said.

"But, you are much too small for  
a milk-maid," protested her mother.  
"Well," said Kathleen, "I could go  
as a condensed milk maid."

Sub-Editor—"I see here that an  
English general was badly cut in  
opening a bottle of wine. What sort  
of a heading shall I put over it?"

Managing Editor—"Oh, just say  
'Serious accident to British man-of-  
war attempting to get into port.'"

### A Price Story

A school principal went into a  
fancy goods store to buy his friend a  
comb for Christmas. He was very  
careful of his grammar, and also  
other folks' grammar. He asked for  
a man's comb.

"Do you want a narrow man's  
comb?" asked the storekeeper.

"No," said the careful grammarian,  
"I want a comb for a stout man with  
rubber teeth!"

### Appropriate

"What's the matter, John?"  
"Why, ma'am, here's a note from  
the master in which he tells me that  
he's off on a little holiday and he  
wants me to send his drawing material  
along."

"Well, and isn't that plain  
enough?"

"Hardly, ma'am. I don't know  
whether to send his paint brushes or  
a cork-screw."

## Spade Work That Gets The Trade

To get steady sales in satisfactory  
volume, you must build up confidence  
in your store and its service.

Advertising in "The Enterprise" will  
lay the foundation of such confidence.  
Advertising does the spade work that  
leads to bigger sales. It will tell folks  
about your store, its service. It will tell  
them about the goods you have to offer.

Let your advertising in "The Enterprise"  
be a standing invitation to the  
folks around here. As a rule,

## CHAPTER XXIII—Continued

A whimsical smile played with the corners of her mouth. "Remember," she said, "that you promised me, that first day at Yvonne's, that you would be a faithful friend of mine." The smile disappeared, and left her wistful. "And I remember, too, that you are the only one, Teddy, who has turned out to be just what I thought you would be. All the rest are different than I expected."

"Are you, too, different than you thought you'd be?"

She laughed, gaily, but all she said was, "Heaps!" After awhile she added, "But we haven't, remember, Teddy. It may transpire that some day I shall have nothing left but reminiscence of it, that happens, I'll want them all eaved up. You'll be one of the best of them."

He caught her hand, when she rose, and held her. She did not draw away, but stood quietly, her eyes meeting his. She was so close to him that he felt the warmth and tenderness of her, and that she was almost breathless. For one brief instant his brain went into a riot and he was dizzy. When his head cleared he felt her crushed against him, and realized that it was his own arms that were holding her. When, at last, she stirred, he kissed her again, and then freed her. Before she drew back she said to him:

"I would like to love you, Teddy, and if I could, I would. No one has ever said so fine a thing to me as you have—that you'd not only love me but take me however I am. That is so different than being told that I'm wanted but mustn't be, had I'll remember it, whatever happens."

Before they reached the gates of the Villa Amette grounds Joanna brought up his threat to do the opposite. With her, Kennedy, "I'd rather you'd not tell him that I know what has been in the past between him and Yvonne," she said. "It hasn't interested me at all, you know."

Somewhat, Teddy thought, it did interest her. He was, toothily about it, and resentful, which he didn't have a chance to show, however, because they were turning into the villa path and Joanna, with a flirt of her eyebrows, into a final gallop toward the stables.

Dominique had all the Englishman's love for the horses. He got down from a ride with Joanna, and those rides through the fragrant beauty of the Riviera hills were as frequent as the waves of the sea. He did not watch the groomers rub down the horses and perform the countless little services which the British stable master finds as necessary to his charges as are the administration of a watchful maid to the grooming of her dainty mistress. Both of the steeds that had ridden that morning had been his gifts to the Golden Girl, brought from the stables in Sussex he had inherited with his other fortunes. It was significant that while Teddy Kennedy showed her with things made from diamonds at every excuse for a gift that presented itself, and while Brandon, with a finer sense, found rare bits of blouflore for her delight, Teddy had made it his habit, with exquisite trappings coming along in periodical installments.

Joanna left him among the groomers, after an affectionate and appreciative rub at her steed's nose. Martha, who had caught the echoes of the gallop through the bridge path, out from the house with a soft cape for her mistress's shoulders, but Joanna waved her away and turned in among the beds of gorgeous parvies and French violets which lined the walk on either side up to a picturesque white summer house, a miniature of the Villa Tri-

non of Versailles. This spacious house, with its broad porches and crystal windows was famous along the Riviera legends more or less romantic. When the grounds of Villa Amette were thrown upon to some exotic revel, the house in the "Amette Trianon" was the centre of bizarre festivities. From its porches one might look along far stretches of the deep blue Mediterranean, and wave many little fancies about the snake-like ships coming in from Sues or stealing along to Corsica.

Joanna dropped onto a step beneath the window and, with her customary trick of pulling up her knees and resting her chin in them, fell into a profound study. She did not notice when her riding crop slid from her listless fingers, nor when Martha, who had been observing her, came across the lawn and submissively spread the cape, which was heavy enough to believe the always cool sea breezes, around her slim shoulders.

Of what Teddy had said to her only one thing hurt a bit. The talk among that circle of butterflies and butterfly hunters which make up the gay colony of gamblers—gamblers in love of one kind or another as well as in money of the only kind—that credited her with deliberately "stealing" from Yvonne, one by one, that rich company of devotees whose constant hanging on about her had charmed them as her own particular array of servicable gallants. It was true, of course. Brandon, for whom she knew Yvonne would hold little whatever she said; Teddy Kennedy, who had once been much to Yvonne's confidant, and who, for some strange reason, might still command her when he chose to drop his gallant mask and tear hers aside; Michael, the Russian, who had saved his fortune from the debacle at St. Petersburg and had been in the past between him and Yvonne," she said. "It hasn't interested me at all, you know."

Somewhat, Teddy thought, it did interest her. He was, toothily about it, and resentful, which he didn't have a chance to show, however, because they were turning into the villa path and Joanna, with a flirt of her eyebrows, into a final gallop toward the stables.

Dominique had all the Englishman's love for the horses. He got down from a ride with Joanna, and those rides through the fragrant beauty of the Riviera hills were as frequent as the waves of the sea. He did not watch the groomers rub down the horses and perform the countless little services which the British stable master finds as necessary to his charges as are the administration of a watchful maid to the grooming of her dainty mistress. Both of the steeds that had ridden that morning had been his gifts to the Golden Girl, brought from the stables in Sussex he had inherited with his other fortunes. It was significant that while Teddy Kennedy showed her with things made from diamonds at every excuse for a gift that presented itself, and while Brandon, with a finer sense, found rare bits of blouflore for her delight, Teddy had made it his habit, with exquisite trappings coming along in periodical installments.

Joanna left him among the groomers, after an affectionate and appreciative rub at her steed's nose. Martha, who had caught the echoes of the gallop through the bridge path, out from the house with a soft cape for her mistress's shoulders, but Joanna waved her away and turned in among the beds of gorgeous parvies and French violets which lined the walk on either side up to a picturesque white summer house, a miniature of the Villa Tri-

non of Versailles. This spacious house, with its broad porches and crystal windows was famous along the Riviera legends more or less romantic. When the grounds of Villa Amette were thrown upon to some exotic revel, the house in the "Amette Trianon" was the centre of bizarre festivities. From its porches one might look along far stretches of the deep blue Mediterranean, and wave many little fancies about the snake-like ships coming in from Sues or stealing along to Corsica.

Joanna felt the touch of her hand. Yvonne's reply: "You'll hardly be free that will measure up to your body is frankly worried by him. That I can understand because, when Roddy goes on an emotional spree he scents a battle in every lone scout that gives his quarry a chance inspection. But you are usually content. And, if I'm not mistaken, you hold the whip and can swing it, whenever you are ready."

## Do Not Depend On Sight

Bats Have Peculiar Sense to Direct Their Flight

"Blind as a bat" is an expression not in accordance with the fact, to comment solemnly on a natural enough bit of shortcoming in popular speech. The creature has perfectly good eyes, though in most cases very small ones; but it is likely that they depend very little on eyesight, either to find their way about or in chasing insects, and most of their line—except in the case of the fruit-eaters—is spent in darkness. Most bats frequent caverns, the deepest recesses of which are never visited by a single ray of the weakest light, and have, night after night, no sense of direction or ledge with all the assurance of birds going to roost in the daylight. About the close of the eleventh century, the Italian naturalist and experimenter, Spallanzani, performed his classical experiments with bats and discovered that the power of controlled and directed flight was independent of eyesight. Spallanzani closed the eyes of bats with varnish and liberated the creatures in rooms crowded and recessed with fine silk threads. The blinded bats flew freely back and forth between the threads avoiding contact with the obstructions, and absolutely certain of directions. These and similar studies have led to the belief that the ability to find their way when blinded or in the pitch-darkness of a cavern, resides in the great development of a tactile sense—a delicacy of sensitiveness to touch, pressure or vibration, beyond anything known in other mammals. The peculiar outgrowth on the face and ears of bats which give them such a demonic appearance are doubtless connected with this extreme sensitiveness as the seat of some of its organs.

## Attain High Altitude Without Oxygen

At 28,000 Feet Pilot Said Moving Was an Effort

Recently at Wright Field, Fairport, Ohio, Lieutenant Harold L. Clarke, an ace pilot, in a standard military aircraft, attained an altitude of 28,000 feet without any special preparation other than that his plane was equipped with a supercharger. The pilot carried no oxygen, no additional supply of gasoline and was equipped only for a routine flight.

The ascent and descent were made in less than two hours and the pilot was none the worse for his experience. After Clarke landed, C. O. Perry, of the Engineering Department, took the same plane to an altitude of 28,000 feet with Captain T. C. Buckner, field sergeant, as a passenger. Captain Buckner had never been higher than 14,000 feet and expressed a desire for an altitude flight to gain first-hand information on effect of his elevations on an unprotected flyer without oxygen or other special equipment.

Mr. Perry took the plane to 28,000 feet in fifty minutes and descended in thirty minutes. The pilot stated that at the height of the flight he experienced some fatigue, that his eyes became numb and that every movement was an effort.

Captain Buckner felt the cold keenly. He took his own pulse at frequent intervals and had difficulty in making the count at 28,000 feet. On the descent he experienced intense pain in his ears, but felt no ill effects after landing.

## Pier Wireless Has Played In Storms

Sea Records This Year Would Have Been Starting But for the New Invention

The year 1928, one of the worst on record for storms at sea, has given, paradoxically, that safety at sea is the new slogan of sailors.

Radio this year has fought one of its greatest sea battles to save lives, standing against it on the failure side of the ledger are fluted under the brusque words, "totally lost," in Lloyd's Register, 124 vessels for the first three months of 1928, against a loss of 105 for the same period the previous year. While this year's losses have not yet been completely covered, the figures show more than 400 craft lost in the Florida hurricane and 160 schooners wrecked in Havana harbor by the Cuban blow.

Standing to the credit of radio is the assertion of shipping men that the losses at sea this year would have reached startling figures had no wireless on shipsboard spluttered its ray of assistance. To those who sail the sea the wireless has given a comfort ray thought of safety that mariners and travellers of other days have not known.

Church May Become Dance Hall One of the world's most famous churches, recognized as the most glorious triumph of Byzantine art, and built in the sixth century, may become a dance hall.

"What's good for my wife's fallen arches?"

"Rubber heels."

"What shall I rub 'em with?"

## Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds

Children's diseases are easily upset by too much "dosing." Vicks VapoRub being external, does not upset little stomachs.

At the first sign of a cold, sore throat, or any other cold trouble, apply Vicks just "rub it on."

## Plan Lavish Opening For Anzac Capital

Preparations for a 'lavish scale' are being made for the opening of the new Commonwealth Parliament Buildings at Canberra, by His Royal Highness, the Duke of York, in May. The federal authorities are planning to accommodate any number of visitors up to 100,000 to participate in the celebrations which will be carried out not only in the newly constructed capital, but at various airports as well. Included in the program will be a brilliant military and naval review in which aeroplanes also will participate. About 50,000 are expected to go to Canberra to witness the opening, but plans are being made to accommodate a far larger gathering if necessary.

"Drive On, Nick!"

The taxi suddenly came to a stop  
in the middle of the street at Frank.  
"What's the matter?" called a  
man from the back seat."I thought the young lady said  
'stop'," answered the chauffeur.  
"Well, she wasn't talking to you!"In the hold-up game, Calgary  
seems to be giving Chicago somewhat  
of a run lately.College girls are taking up boxing.  
They wrestle, too, but it is called  
judo.G. G. Coote, M.P., returned to Nan-  
ton from Ottawa to spend Christmas  
at his home.Jack Clark, of the local Royal Bank  
staff, spent the Christmas week end  
with his parents at Calgary.Something over two million dollars  
represents the value of the Alberta  
fur crop for the year 1933-34.The United States Steel Corpora-  
tion declared a forty per cent stock  
dividend on December 17th, or \$200,  
000,000.A little boy was asked the other  
day if he could dance the Charleston.  
He replied: "No, I got brains, so  
can't dance!"At this Christmas time you should  
remember that if a man has sunshine  
in his soul he doesn't need moonshine  
in his stomach.Rocky MacDonald was outpointed in  
all stages of a ten-round boxing  
match for middleweight honors at  
Drumheller on Christmas Day by  
Pete Charley.Sniplets are reported as very plenti-  
ful along certain parts of the Nova  
Scotia coast. In some instances fish-  
ermen have gathered in as much as  
a ton per net at a haul.Gene Tunney had a very narrow  
escape from drowning, when he broke  
through the ice on Moosehead Lake,  
in northern Maine a few days ago.  
He was on his way to Rockwood to  
attend mass.An able address on the subject of  
"Selective Immigration" was delivered  
by Mr. Alfred Cummings to a  
meeting of the Fernie Chapter of  
Beavers. The address is well worthy  
of repeating in any of our towns.Hon. Herbert Greenfield, commis-  
sioner of colonization for Alberta,  
will leave for England shortly after  
New Year, for the purpose of open-  
ing an office for the Alberta govern-  
ment for the direction of immigration  
to the province.No one attended the convention of  
moonshine manufacturers called to be  
held at Lethbridge last week. People  
following that profession have either  
died off or quit the business, and their  
names will likely be cut off the  
companies register.A most enjoyable Christmas Tree  
was staged with the closing of the  
Frank public school for the Christ-  
mas holidays. A splendid programme  
was carried out under the supervision  
of Mr. Drake and Miss Annie Pen-  
man, in which upwards of sixty chil-  
dren took part.On the grounds of "want of prosecu-  
tion," Charles Garrow, K.C., master  
of the supreme court at Osgoode Hall,  
has dismissed the libel action of W.  
L. Mackenzie King, Charles Murphy  
and John C. Elliott, against the late  
John Ross Robertson, former owner  
of the Evening Telegram at Toronto.Norval Bapiste and his troupe of  
fast and fancy skaters formed the at-  
traction at the local arena on Christ-  
mas Day. His company includes Miss  
Glady's Lamb, the world's greatest  
lady trick skater; Miss Glady's Robin-  
son, world's greatest speed skater,  
and Mr. Arthur Staff, professional  
wrestler. Their entertainment was  
much enjoyed.An old couple, not too well blessed  
with this world's goods, had been left  
two hundred dollars by the husband's  
employer. They had never dreamed  
of having so much money of their  
own, and that evening they sat down  
to discuss their altered circumstances.  
After a time, John rose to his feet,  
put his hands on his wife's shoulders,  
and observed: "Noo, Janet, mind this,  
we're not goin' ta make 'any show' o'  
our wealth. We'll jist speak ta the  
neebors the same as if naethin' had  
happened."**Local and General Items**Miss Eleanor Farmer is home to  
spend the Christmas holidays with  
her parents.Frank Leary says if you lend a  
friend five dollars and never see him  
again, it's worth it.As a halfway place between the  
Crows' Nest Pass and Waterton,  
Pincher Creek needs an up-to-date  
hotel.Owing to change of night of meet-  
ing, the next regular meeting of the  
local Elks' Lodge will be held on  
January 11th.Mr. J. W. Halton, who for a short  
time was teller at the local branch of  
the Royal Bank of Canada, has been  
transferred to the Foremost branch.The Elks at Nanton staged a tag  
day for the kiddies and realized \$83.  
One hundred and fifty dollars were  
spent on the kiddies' Christmas treat.We wish to thank the Calgary Herald,  
the F. M. Thompson Co., the Stovel  
Co. and the Metropolitan Insur-  
ance Co., for calendars and date  
pads for 1937.Before Christmas, recipes on how  
to make a Christmas pudding were  
looked for. Now a recipe on how to  
get rid of the after effects of the  
pudding is equally desirable.H. E. Davidson, whose remains  
were picked up in the railway yards  
at Tompkins, Sask., last week, was  
found to have a bank account of  
\$2000. He was enroute to Claresholm.A touring car returning east over  
the Frank Slide on Monday afternoon  
became unmanageable and was com-  
pletely overturned. Several occupants,  
including a woman and a baby, es-  
caped unhurt, and the car was but  
slightly damaged.A number of the south-end resi-  
dents were kept awake last week by  
the supposed noise and squealing of  
swine in the local stock yard. This,  
however, turned out to be Bruno  
Coreman who was riding the goat in  
The Elks' lodge that evening—Stave-  
ley Advertiser.The following have arrived to spend  
the Christmas holidays in Blairmore:  
Mrs. Fleming and family, Misses  
Kathleen Tompkins, Mary and Irene  
Sartoris, Julia Dutil, Flora Warner,  
Grace Penman, and Masters John  
Lloyd, Paris Barattelli, Louis Pozzi  
and Edward Ennis.Faced with the falling due of \$108,  
228.55 in mortgages without funds  
to meet them, a claim of \$67,075 for  
materials on expiration of its fran-  
chise, the Chicago Railways Company,  
operators of street car lines on the  
north and west sides of Chicago, went  
into receivership on December 16th.Mr. William Bennett, manager of  
the Rock Creek Hereford Ranch, re-  
cently returned from a visit to Chi-  
cago. While there he purchased two  
high-class bulls, one of the Hereford  
Woodford type, one of which was first  
in a class of eighteen, the other  
eighth. The bulls have arrived at  
the ranch.Christmas passed off very quietly  
in Blairmore, absolutely void of such  
unpleasant afterthoughts as court cases.  
Calls to our minds several regrettable  
incidents which transpired here a  
year ago and on previous occasions  
when the Christmas spirit of respect-  
able citizens was unnecessarily mar-  
red by the activities of authorities.The "nagging wife" finds a staunch  
defender in one eminent medical  
scientist, who declares that she is  
really a boon to her husband, for by  
seeing that he does not keep late  
hours, does not smoke or drink too  
much, and that he adopts such self-  
protective habits as using an um-  
rella when it rains, she is contin-  
uously contributing to his health and  
longevity.The Christmas edition of The Blai-  
rmore Enterprise carried 375 inches of  
greeting ads.R. Knappert spent Christmas with  
his family at Lethbridge, returning  
Tuesday morning.Blairmore went down to defeat at  
the hands of the Coleman Tigers on  
Tuesday night, the score being five  
to two.Through a card received during the  
Yuletide, Mr. James Burke, then in  
California enroute to Mexico, wished  
to be remembered to his Pass friends.The local L.O.O.F. Lodge will meet  
every first and third Tuesday nights  
of each month, commencing January  
the 4th, instead of every week as  
formerly.Ralph Wootton has returned to  
Blairmore and assumed his former  
position with the West Canadian Col-  
lectories, after several months' resi-  
dence in Calgary.Mrs. Kuseka, a Slav resident of  
Corbin, died early last week and was  
buried at Michel on Thursday last.  
She was the biggest woman in Corbin,  
weighing 380 pounds.Mr. and Mrs. J. B. Coughlan have  
moved into the apartment rooms in  
the Koch block vacated by Mrs. Lov-  
ins, who has gone to California for  
the winter.—High River Times.Southern California has been get-  
ting snow, frost, lightning and cold  
rains, and the inhabitants are seri-  
ously contemplating moving north  
to enjoy the splendid climate of Al-  
berta.The Claresholm Review-Advertiser  
remarks: Bobby Powers and Johnny  
Amundsen showed the "little old  
hockey head," even though the feet  
did not track right in the first game.Miss Fern Palmer, who is teaching  
at Lacombe this year, arrived on  
Wednesday to spend the holidays with  
her parents, Mr. and Mrs. Fred  
Palmer.—Claresholm Review-Advertiser.Local parties may be justified in  
patronizing Booths or any other meat  
dealers, if they are in a position to  
feel independent of the local butcher  
shop. But many of those sending  
their money out nowadays owe the  
local merchant and would probably  
stick him for more if they had the  
opportunity.Constable Mudimen, who for the  
past couple of years has served very  
efficiently on the local detachment of  
the Alberta Provincial Police, has  
been transferred to Manyberries, and  
left for his new post on Tuesday  
morning. We understand that the  
transfer means promotion. During  
his stay here, Constable Mudimen  
made many friends.Since the acquittal of Kenneth  
Woolf on the charge of stealing funds  
from Cardston's treasury, a further  
shortage has been reported by Au-  
ditor Battrum, amounting to \$141.00.  
Mrs. Aldridge, the present secretary-  
treasurer, has been exonerated from  
all blame in connection with this  
shortage, and the town council are in  
quite a quandary over the matter.A very bad accident took place at  
Elko on Saturday night, when Jimmy  
Camillio, late section boss for the G.  
N. at Hosmer, had an eye blown out  
and the other badly damaged in a  
premature dynamite blast. His right  
hand was also badly smashed by the  
explosion. He was rushed to the  
Ferne hospital on the evening train,  
where everything possible was done  
for him. He will be sent to a special-  
ist in Calgary, where an effort will  
be made to save the sight of the re-  
maining eye. The injured man is a  
well known member of the Italian col-  
ony in this district and has a wife  
and family residing at Hosmer.—Fer-  
rie Free Press.Lawyers are shifted specialists who  
protect us from other lawyers.J. A. Packer was down from Cal-  
gary and spent Christmas with his  
family here.Mr. McMurchie, of the local C.P.R.  
staff, spent Christmas at his home  
near Macleod.Emperor Yoshihito, of Japan, died  
of pneumonia on December 24th,  
aged forty-seven.Mrs. M. Joyce was called to Michel  
on Tuesday, owing to the illness of  
a relative there.Dance the old year out and the new  
one in at the Elks' third annual New  
Year's Eve novelty dance in the opera  
house tomorrow night.P. Burns, head of the firm of P.  
Burns & Co., who has been seriously  
ill for a few weeks, is now reported  
as well on the road to recovery.**Here and There**The third great international ex-  
hibition of leather goods will be  
held in Milan, Italy from January  
22, to 29, and promises to be a  
greater success than either of the  
former exhibitions held in Europe.  
Business transacted during the first  
two exhibitions amounted to over  
\$15,000,000.All taxes formerly required to be  
paid in Italy on hotel bills, baths  
and medical attention in health re-  
sorts, have been abolished, accord-  
ing to recent information given out  
by the Royal Consul General of  
Italy. Such information will prove  
interesting to tourists contemplating  
a visit to that country.Quebec—What is said to be a  
record shipment of seals, 188 tons,  
left this port for New York recent-  
ly, the last of eight consignments  
since the beginning of November,  
all for the same city. New Yorkers  
have acquired a partiality for the  
seal from the region below Quebec,  
and the trade is growing each year.One of the largest farm sales in  
several months to a single im-  
pudent family was recently effected  
in the purchase of a 720-acre tract  
five miles south-east of Brandon by  
a Lutheran farmer and four sons;  
the purchase price being \$25,800.  
According to Dr. A. T. Connell, the  
farm is well equipped with stock and  
buildings.Sheep from the Prince of Wales'  
Alberta ranch, south-west of Cal-  
gary, are superlative, according to  
Walter Charles Friday, of the Cor-  
diale Sheep Co., Gridley, Cal-  
ifornia. He has just purchased forty  
head of imported Shropshires from  
the Royal ranch, as well as fifteen  
from other flocks in the district.Asbestos waste as a soil strength-  
ener is the latest in the line of by-  
products. Early this year the De-  
velopment Branch of the Canadian  
Pacific Railway undertook an in-  
vestigation and inaugurated a se-  
ries of experiments in the use of  
this material, Macdonald College  
actively co-operated and results so  
far show that this material has a  
real value when applied to certain  
soils.A valuable consignment of twenty-  
six silver black foxes valued at ap-  
proximately \$20,000 was handled by  
the Canadian Pacific Express Com-  
pany in Montreal recently. The an-  
imals were shipped directly from  
the Meritt Silver Black Fox Ranch  
at Meritt, B.C., and will be for-  
warded to Messrs. Baillon and  
Paulin, Grenoble, France, to a  
new fox ranch, which this British  
Columbia shipment will be the  
nucleus.Completing the first 3,200 miles  
of a ten thousand mile journey from  
Liverpool to Osaka, Japan, thirty  
cannaries valued at a hundred pounds  
sterling, arrived at the Canadian  
Pacific Express Company sheds in  
Montreal recently and left from the  
Windsor street station for Vanocou-  
ver. They came over on Canadian  
Pacific liner Montroyal to Saint  
John and although they had ex-  
perienced somewhat of a stormy  
crossing, were in fine feather and  
singing at the top of their voices.Little Blairmore Girl—"God loves  
men better than women, doesn't he?"  
Surprised, but cautious Mother—  
"What makes you think so, dear?"  
Little Girl—"Because He says,  
'Peace on earth good will toward  
men!'"**For Sale, For Rent, Etc.****FURNISHED HOUSES FOR RENT**
